| | | | | |
|---|---|---|---|---|
| HTML5 | CSS3 | JavaScript | PaintShop Pro | Figma |
| Bootstrap | Git | GitHub & GitLab | Angular | Google |
| C# | PHP | .Net | Docker | SQL |
| Visual Studio Code | Visual Studio 2019 | MySQL Server | FileZilla | |

## Education:

**Purdue University Global**
*4.0 GPA*
**Associate of Applied Science in Information Technology –
Programming and Software Development**
*March, 2022*

## Experience:

**JM Insurance Group**
*March 2022- Present*
**Full-stack Developer**
Refreshing the website and converting it from .Net to vanilla HTML5, CSS3, and JavaScript. Updating form with accessibility and security in mind and adding a blog section using 11ty and Nunjucks.

**KidzBux**
*January 2021 – Present*
**Front-end developer**
From design to implementation, working on the front-end for this app using Figma and Angular.

**PGIP-Tech**

*January 2022 – Present*

**SofDev Mentor**

Guided 14+ interns in various coding experiences, including object-oriented programming issues, React, UI/UX design, accessibility awareness and testing, front-end security awareness and testing, and the importance of "Googling" questions and solutions to coding errors.

**Dev-angela.com**

*January 2022 – Present*

**Owner/Designer/Developer**

Designed personal portfolio website, coded in HTML, CSS, Bootstrap, and jQuery, launched using FileZilla.

**PGIP-Tech Internship**

*10/14/2021 – 12/21/2021*

**SofDev Manager**

Kept interns on track assigned tasks, worked with Docker, PHP, Git/GitLab and MySQLi on group project, and helped interns pick a path and the stack they needed.

**Purdue University Global**

*July 2020 – March 2022*

**Student**

Learned to write and edit SQL relational databases using MySQL Server, the concepts of object-oriented programming (C#) using VS 2019, how to code, test, and debug HTML, CSS, and JS by hand using Notepad, how to recode non-responsive websites with Flexbox, and how to create a portfolio website.
